Township Scouts Off to National Confab Near L.A.

Special To The Register

Fifteen local Boy Scouts, under Scoutmaster Lawrence Pine of Niles, left yesterday for a week at the Third National Scout Jamboree, near Santa Ana.

The Township Scouts will join 50,000 of their fellows from every State in the nation for Scouting's biggest get-together.

They will gather, starting today, on the 3000-acre campsite 40 miles south of Los Angeles. Last Saturday, 350 Scouts from the Oakland area, including the local youths, met for a final rehearsal at Lakeshore Park, Oakland.

Township Scouts are part of the Twin Valley District. This takes in Pleasanton and Livermore, as well as Washington Township. Ten troops from the Oakland Area, of which local Troop 22 is one, will attend the jamboree.

Special busses picked up Township Scouts in pre-dawn hours here yesterday. The Scouts are scheduled to return home late on July 25.

Junior Leaders who will aid Pine at Santa Ana are Scouts Leroy Brown of Newark, Don Phillips of Irvington, and Mal Dickerson of Niles.

Scouts from this area who are en route to Santa Ana include: Patrol Leader James May and Assistant Patrol Leader Donald Dewey fo Niles; Scouts Ernest Perry, Ruel Brown, John Cattaneo, Jr., Ronald Schaaf and Dave Dickerson of Niles; Johnny Kleine of Centerville; Patrol Leader Gary Brewer, Assistant Patrol Leader Wiley Blacow and Scout Gerald Harvey of Irvington; Scout Manuel Hidalgo of Decoto.

Two leaders who will be at Santa Ana are veterans of prior encampments. Scoutmaster Pine attended the 1937 Jamboree in Washington, D. C.; and Leroy Brown attended the 1950 edition at Valley Forge, Pa.

GRAVEL PIT WINS PLANNERS' OKEH

Despite grumbles from Niles, a San Jose construction firm last week won Planning Commission approval for a gravel pit near Sunol.

The okeh went to Concrete Service Co., to dig a 60-acre pit on Calaveras Creek at the junction of Mission San Jose-Livermore Road.

Niles Chamber of Commerce members had expressed fear that the operation will bring swarms of trucks down Niles Canyon. This issue was not raised at the hearing, however.

The commission stipulated (1) that the 80-foot pit must be eventually refilled to within 10 feet of ground level, and (2) that the permit must be renewed every year. It is revocable, for cause.

IT'S LIGHT, IT'S BEAUTIFUL! — Pretty model shows off revolutionary new Kraftile product, Thin Veneer tile, which is heralded as boon to building industry. Formerly such facing products weighed three or four times as much as the item this miss is displaying. (Cal-Pictures)

Kraftile Perfects Revolutionary Lightweight Building Material

By STUART NIXON

A process which may revolutionize important parts of the building industry has been developed in Niles by the Kraftile Company.

The process manufactures a handsome terra-cotta or ceramic veneer tile called "Thin Veneer," which weighs only about one-third as much as former tiles used for building facings.

PRESIDENT — of Kraftile, Charles W. Kraft, eyes another of the Niles firm's products, patio tile.

The tile is made in sizes up to 18 by 24 inches, and is only three-eighths of an inch thick. Formerly such pieces had to be an inch or more thick. Foot-square sections weighed more than 10 pounds.

The impact on the building-facing market already is apparent, according to President C. W. Kraft, although Kraftile's new "Thin Veneer" won't be used commercially until September.

Rival clay-product manufacturers have vainly sought samples of the tile to probe its secrets. First commercial appearance of Thin Veneer, however, will be on a job in Stockton seven or eight weeks hence.

Kraft today told The Township Register in an exclusive interview that he credits development of Thin Veneer principally to three of his executives—Joseph R. Peebles, advertising manager; Les Alt, vice-president and production manager; and Al Wild, ceramic engineer.

Kraftile came to Niles in 1926, and Kraft took over as its president 10 years later. Now a $500,000 factory, it employs 75 persons.

In addition to its thickness and light weight, Kraft points out that other advantages of the Thin Veneer include ease of installation, since the veneer can be cut to fit by craftsmen on the job; reduced thickness of setting mortar, since only 3/8-inch joints will be required; ease of application to reinforced concete, brick, cement blocks and even to a scratch coat cement plaster on wood studs, the same as a finish coat of stucco.

"Because of the weight of the regular terracotta and the necessity of pre-cut pieces at the factory, the shipping radius has been confined to close proximity to the plant," Kraft says. "With Thin Veneer and its light weight, and the advantage of easy cutting on the job with masons' saws, it would seem that

4 HELD IN NEWARK FOR DANCE FRACAS

Four men were arrested Sunday night as a climax to a public dance which concluded a week-end festival in Newark.

Accused of interfering with an officer were Louie L. Roche, 26, Haley Road dairyman, and Walter J. Santos, 24, of 673 Elm Street.

Charged with battery and disturbing the peace were Joseph A. Soito, 38, Haley Road, and James H. McCullough, 34, bartender, 756 Mulberry.

Officers said Special Deputy Manuel Texeira complained that a crowd of men "jumped" him when he attempted to quiet them at the dance. Four regular deputies responded and attempted to arrest McCullough and Soito.

Deputy Sheriffs James Chisholm then said Roche and Santos tried to prevent him from arresting their friends, adding that they tried to use his own tie to choke him.

All four suspects are free on bail, to appear in court later this week.

In the fracas, Santos received cuts about the head, requiring ten stitches.

WATER, FLOOD MEN ASKED TO EXPLAIN ISSUES TO C. OF C.

Invitations to county flood control officials and directors of the Alameda County Water District were authorized at Monday's session of the Centerville Chamber of Commerce.

LeRoy Broun wanted County Flood Engineer Herb Crowle on hand next week to report on the status of negotiations with Livermore and Pleasanton interests over a joint flood-curb zone with Washington Township.

And Ralph Goodwin asked that a representative of the water district be asked the following week to outline its conservation and distribution program for the future.

"They promised to speak to us as soon as they finished installing their new accounting system," Goodwin asserted. "They do have considerable deficiencies, and I think they're aware of them, but I think we should know what their program is."

Bill Bauhofer asked that the proper authorities be quizzed about the possibility of salt-water control around Centerville. Bauhofer said a well sunk at his creamery has produced nothing but salty water recently, and that the condition is again becoming widespread.

Several members demanded what has become of a State-sponsored salinity survey said to have been conducted in the Township two years ago. Broun was instructed to seek an answer from the State and possibly from the water department.

NILES 'PLAN IS ON DISPLAY AT BANK

A master plan for development of Niles is on display in the Central Bank here this week.

The plan was developed by Planning Commission officials, and amended by a chamber of commerce committee headed by Vernon Ellsworth.

Chamber President C. W. Chrylsler today urged (1) every resident to inspect the proposal, and (2) interested persons to attend next Tuesday's Chamber session in the International Kitchen to discuss it.

The plan proposes, roughly, that existing uses be maintained, except that industry be located between and beside the railroad tracks south of Alameda Creek.

County officials have declared that some such plan must be agreed upon locally before any zoning can be instituted.

FREE KIDS' FILM AT NILES THEATER

A free kiddies' matinee will be staged next Wednesday, July 22, at 1 p.m., for the youngsters of Niles and vicinity through cooperation of the town's merchants and the Niles Theater.

Manager Ted Tully today announced admission to the show may be obtained at any store in Niles.

The program will consist of a puppet show staged by Frank and Dorothy Hayward, Oakland puppeteers, plus a Laurel & Hardy comedy, "Out West," and an animated cartoon.

More than 60 merchants added their efforts to Tully's to make the free entertainment possible.

GOING UP — Latest view of the $2,500,000 Orangeburg pipe factory, springing up near Newark, shows virtually all outside construction complete. The plant is expected to begin operations late this year. It will manufacture soil pipe from newspaper and asphalt. At left, rear, can be seen Leslie Salt plant. (Register Photo)

CAR-TRUCK CRASH KILLS WOMAN AT MISSION

DEATH CAR — A Santa Clara woman died in the wreckage of this car Tuesday afternoon on the Mission-Niles Highway just north of Mission San Jose when the sedan shown above collided headon with a fruit truck headed north from San Jose. (Register Photo)

A head-on collision between a sedan and a heavily-loaded apricot truck at the Mission San Jose "Y" late Tuesday brought death to an elderly Santa Clara woman and serious injuries to her husband.

The impact hurled the heavy truck and its trailer from the highway, scattering tons of apricots and blocking traffic.

Dead is Mrs. Daisy O. Scheibe, 63. Her husband, George, 65, driver of the car which entered the highway from the Mission-Livermore grade, is in a Berkeley hospital with a broken arm and internal injuries.

A witness, hitchhiker L. E. Inman, 51, of Oakland, told The Register that Scheibe's sedan failed to halt at the stop sign, sped ahead and plowed headon into the truck.

Inman said he saw Truckdriver Art Weidner, 33, of Lodi, swerve vainly in an effort to avoid the oncoming car. Weidener was unhurt.

Mrs. Scheibe's body was taken to Chapel of the Palms while authorities tried to locate her relatives.

In another accident early Tuesday, an Oakland car-theft suspect overturned a stolen hard-top convertible and snapped off a telephone pole at Kimber Farms, south of Niles.

Eugene Fitch, 34, was taken from the wreckage with cuts and bruises. Officers said the car in which he was riding when the accident occurred had been stolen a few hours earlier from a new-car showroom at 12th and Harrison Streets, Oakland.

They surmised Fitch hid in the showroom until closing time, then picked out the 1953-model reluxe auto and drove it out—CRASH—through a plate-glass window.

He is held for car theft.

DRIVER ARRESTED

Raul G. Castillo of Decoto was arrested here Friday for drunken driving. He will appear July 28 before Judge E. A. Quaresma.

Labor, Employers Pledge Help for Township United Crusade Drive

Pledges of help in achieving the 1953 United Crusade goal in Washington Township were received here Tuesday from representatives of labor and management.

The promises were given at a luncheon meeting called by Township Crusade Chairman Peter D. Juhl.

Juhl urged both workers and employers to adopt a payroll deduction plans. These, he said, will insure a successful crusade.

The second annual fund-raising drive starts October 6, with advance donations two weeks ahead of that date.

"Last year the first United Crusade covered 90 per cent of the major campaigns in the field, and yet it raised more than all of them combined," Juhl declared.

Art Hellinger, area CIO representative, and Ray Colliver of the AFL, endorsed the crusade-type campaign because, they said, "more dollars go to do more good, and administrative costs are held to a minimum."

C. W. Kraft, president of Kraftile, spoke for payroll deductions on an installment basis.

Ted Thompson, Crusade staff member, explained the Red Cross has agreed to cooperate as it did last year, joining the Crusade and reserving later emergency drives. Thompson said however that Red Cross workers will not solicit homes which display a Crusade sticker.

IS THIS ANY WAY TO LAY BRICKS?

Barry L. Nichols, 24, an Oawland bricklayer, laid a lot of cars and telephone poles end-to-end around Centerville last Friday—and wound up in the pokey.

Nichols—driving a light truck—sideswiped one car south of town on Highway 17, according to officers. Disregarding this incident, he then sped north, rammed a truck, whizzed down the roadside upending telephone poles like tenpins, crashed through a hedge, across a lawn and through another hedge, finally coming to rest in a field near Machado's Corners.

Angry motorists who pursued him pulled Nichols from his truck.

"Give me a break," he pleaded. "I just got back from Korea."

Patrolmen charged him with drunken driving, hit-run driving, and termed his wild ride one of the worst they had ever heard of.

Tuesday, Nichols paid a $250 fine here.

Are You Surprised? Hillview Crest Loves Hayward

Hillview Crest wants to join Hayward, an informal poll taken last week at a public meeting showed an overwhelming margin.

More than 100 home owners in the tract north of Decoto raised their hands when Meeting Chairman King Cole, 1284 Champlain, asked for an indication on how many wanted to annex the suburb to Hayward.

Water service and sewage service already are supplied by Hayward, under agreements made two years ago by builders of the tract. Postal service comes from Hayward too.

However, a few days later, Hayward's mayor, Bill Wilson, hinted broadly that annexation might cost the city much more than taxes it would receive from Hillview Crest. Wilson said final word must await surveys to determine whether intervening Alta Vista and Valle Vista ought to be annexed.

Glenn Kendall, assistant city manager of Santa Cruz, who surveyed Hillview several months ago for the Coro Foundation, appeared at the meeting in the Hillview School to warn that Hayward might find annexation "financially impractical."

Cole said another meeting will be called August 10. Meantime, he added, ballots will be circulated to determine how the rest of the tract's 608 householders feel about the issue.

House Numbers?

Uniform house numbers for Washington Township—and the rest of Alameda County's rural regions—are a probability soon, Baine Leask reported to the Niles Chamber of Commerce on Tuesday.

Leask said county officials assured him money has been appropriated for a private firm to start work in September. Numbering will be handled by the County Building Inspector's office, he added.

SANDOVAL & PALS SPEND BUSY NIGHT

It wasn't Freddie Sandoval's night last Saturday. Or for some of his friends, either.

Deputy sheriffs, called to quell a street disturbance in Decoto, arrived just in time to see Sandoval punch another man, Leo Basurto, 30, Hayward.

They arrested Sandoval for battery, freed Basurto. An hour later, Basurto again showed up, badly beaten—by an unidentified man, he said. This time he was hospitalized.

Then the officers spotted Sandoval's car driven by Raul G. Castillo, 24, 118 E Street. They arrested Castillo—for drunken driving.

Sandoval gave his address as 504 Seventh Street, Decoto.

When Louise's drinking companion, Ramon Alonzo, 25, of Fifth and E Streets, was arrested by deputy sheriffs for drunkenness, Louise interposed: "You can't do that," then tried to rescue her friend.

Officers stood it for awhile, then bundled her off with Ramon—on charges of disturbing the peace.

NILES SCHOOL TO DELAY BOND SALE

Sale of $69,000 worth of Niles School District bonds, authorized at an election last month, will be delayed until after assessments are completed in August, according to Supt. of Schools E. Dixon Bristow.

However Bristow stressed the delay, undertaken at the suggestion of the district attorney's office, will not affect plans for the new Orchard School, now in the preliminary blueprint stage.

Bristow said work on the plans is progressing under direction of the orchitectural firm of Anderson & Simons, and added he expects first contracts to be let sometime soon after January 1.

The school will double classroom capacity in Niles. It would be built principally with State money, "unfrozen" by passage of a $150,000 bond issue in June. Only $69,000 worth of local bond money would be used, Bristow explained, since assessed valuation of the district won't permit more to be sold yet.

TOWNSHIP SPORTSMEN STAGE SUCCESSFUL FOURTH OF JULY SHOOT, COLLECT $3200

The Washington Township Sportsmen today were adding up the results of the most successful Fourth of July shoot in their history—an event which attracted more than 2000 fans to the new $30,000 clubhouse near Mission San Jose.

Teams from Sacramento, San Jose, Oakland, Niles and from the home club competed for hundreds of dollars in prizes, plus handsome trophies.

The San Jose scatterguns nosed out the Township shooters for team honors, by a score of 204 to 203.

Field Chairmen Andy Costa and Walter George reported the event grossed a total of $3200 in entry fees and refreshment payments.

Firing went on until 11 p.m. on Saturday, on the brilliantly lighted range. Dancing was enjoyed by guests to the music of George Enos and his orchestra.

Climaxing the shoot was presentation of a life membership to Ray Bettencourt, contractor, in recognition of his work to build the handsome new clubhouse. Presentation speeches were made by Judge E. A. Quaresma and Manuel Bernardo, Washington Hi

Joe Dutra of Alvarado was adjudged top local gun for the event. Other high individual scores were posted by Al Caeton Sr., of Newark; and Ted Silveira of Warm Springs.

Costa and George gave credit to a host of members for the successful event. Among those singled out were John Cattaneo, handicapper; Pete Nunes and Dan Quartaroli, starters; Frank Dias and Manuel Vieira, raffles; Stan Roderick, Jim Miranda, Manuel Vargas and John Reyes, refreshments; Henry Rego and John Re, kitchen.

Irvington Boy Scouts handled the traps, while large-bore range operation was under Al Holstrom and Mel Leal.

Following Boys of Irvington Boy Scout Troop No. 1 collected $106.55 for the Cerebral Palsy Drive:

S. F. NINE BOWS TO BEARCATS, 14-3

BY TONY ROGERS

Behind good pitching by John Garcia, the Bearcat nine had little trouble in defeating the Cherills Nursery of San Francisco 14 to 3 Sunday at Centerville. Garcia scattered nine hits while walking two and fanning six.

The Bearcats had two big innings. They scored five runs in the second on six hits and five more in the eighth on three hits, two walks and a hit batter.

Ed Romero led the team at bat with three hits in four tries and batted in three runs. Stan Roderick got the longest hit, a triple, and Ed and Frank Romero along with Hal Alameda and Garcia had doubles.

Next Sunday the Bearcat club travels to Palo Alto to play the Amvets, a team they haven't managed to beat in three tries. The Amvets contain several big-league prospects.

"The reduced weight of the veneer and the setting mortar have the additional advantages of requiring less steel in building.

"Joseph B. Peebles, one of our executives, began working on the Thin Veneer idea in 1952 as project manager and is responsible for much of the product development. Patent application has been made. Since last September we have been running trials through the plant on a machine-made basis.

"The first public showing of the Thin Veneer was made at the Producers' Council Table Top Exhibit in San Francisco during May. It was most enthusiastically received by the architects and engineers who attended the exhibit."

PROJECTS NEARING COMPLETION IN BAY AREA

New Freeway Link First in Multi-Million Dollar Bay Road Program

Beginning with the completion of another 3.9 miles of the Eastshore Freeway on June 5, the progress of State highway improvement in the San Francisco Bay region will be highlighted by the opening to traffic of several important new multilane divided sections during the next few months. Following is the State Department of Public Works' approximate completion timetable for the major State highway projects in the Bay Area now in the final stages of construction:

About July 1—Bay Farm Island Bridge and approaches, Alameda.

About July 1—Five-mile extension of the Arnold Industrial highway from Pittsburg to Antioch.

August—Bayshore Freeway through City of San Mateo, 2.6

August—U. S. 101 from California Park to Myrtle Street in San Rafael, two miles.

September — Bayshore Freeway in San Francisco from Army Street to Bryant Street.

The total cost of these six projects, including rights of way, is more than $22,000,000.

State Director of Public Works Frank B. Durkee pointed out that these nearly completed projects are units in a long-range, continuous program of State highway improvement which is being carried on as rapidly as available funds permit. They have been under construction for varying lengths of time.

"Many other projects designed to provide further relief from congestion and hazard are under way in the Bay Region, while still others have been included in the 1953-54 State highway budget but not yet placed under contract," he declared.

The 3.9-mile freeway unit which was opened on June 5 between San Lorenzo and Hayward, costing an estimated $3,938,000, completes a continuous 15-mile portion of the Eastshore Freeway, at a cost of $25,000,000. This extends from 6th and Fallon Streets in Oakland to Jackson Street. The southerly end of the Eastshore Freeway, consisting of nearly 10 miles between San Jose and Warm Springs, is still under construction at an over-all cost of nearly $5,000,000.

The new Bay Farm Island Bridge replaces an old two-lane structure which is now being removed. This four-lane divided facility, with its approaches, totaling 0.9 of a mile in length, was constructed at an approximate cost of $2,194,000.

On U. S. 50, just east of Hayward, a $1,412,000 contract is underway on 2.2 miles of freeway through Castro Valley. This improvement will, when completed, mark another step forward in the progressive modernization of the major highway connection between the Bay Region and the Joaquin Valley. Still another project on this route, consisting of seven and one-half miles of expressway, is under way between the Altamont Pass and Tracy.

JOE OROZCO DIES IN VETS HOSPITAL

A brief illness proved fatal last Saturday in Oakland Veterans Hospital to Joseph Orozco, 38, of Ninth Street, Decoto, a World War II veteran.

Orozco was the son of Mr. and Mrs. Joe Orozco, and the brother of Ramon, Mal, Sol and Jess Orozco, Mrs. Theresa Flores, Mrs. Eleanor Anchundo, Mrs. Conception Quiroga, all of Decoto, and Mrs. Natividad Chavez of Pittsburg.

Services were Tuesday in Our Lady of the Holy Rosary Church with interment at Golden Gate National Cemetery under direction of Chapel of the Palms.

VFW Wins 10-2 Game

Taking the rubber game of the series, Irvington's VFW nine clobbered Livermore vets last Friday night, 10-2, to win a home-and-home series against their over-the hill rivals.

John Garcia hurled four-hit ball while his teammates were finding the range of the close-in Livermore fences.

Stan Alameda smashed two homers, his brother Mel hit one, and so did Norval Peixotto.

After an afternoon spent studying the Township telephone directory, I have the following information, which you might find interesting. There are sixty-four Silvas, making it the most common name listed. Rose is next, with forty-two numbers. Perry and Garcia tie for third place, each with twenty-six. Then the names can be arranged as follows, Martin, 21; Bettencourt, 20; Amaral, 18; Lewis, 17; Dutra, 17; Andrade, 16; Smith, 15; Brown, 14; and Jones, 11. The list does not include folks who have had telephones installed since the directory was printed. A quick glance at the number of people with the same names will show you how easy it is to get a wrong number, if you are not careful.

* * * *

It would not be hard to fill this whole column with combinations of names found in the 'phone book, such as Pond, Rivers, Fields, Pool, Forrest, Pine, Twigg, and Brooks. Or perhaps Swift, Drake, Swan, Martin, Crane, and Batman. But before we close the book, do you know the shortest name listed between Abbesso to Zwissig? It is Re.

A trip along most any of our Township roads is marred by the rubbish cluttering the sides, thrown there by careless autoists. The current drive to have a paper bag in every car, to be used as a catch-all for peelings and lunch papers is a good one. It takes only a moment to dispose of the bag at your destination, and that way you can be sure your family doesn't add to the increasing liter of our highways.

In yards where there is little afternoon shade, pin an old blanket to the clothes line, anchor it to the ground, and provide shade as well as a "tent" that the children will love.

* * * *

To keep your kitchen cooler, and cut down on gas bills too, turn down the flame as soon as the liquid in the kettle starts to boil.

* * * *

If you place one of those sponge-rubber kneeling pads in the baby's high chair, it will provide a soft cushion, that restrains the baby from squirming.

* * * *

Make cookies for the family, even on the warmest days, by baking refrigerator cookies when it's cool. A roll of dough kept in the freezing compartment can save the day if un-expected company arrives, for cards or T.V. Serve the cookies still hot from the oven, with a sparkling punch made by adding ginger ale to your lemonade mix, then garnish with cherries or mint.

Remember, it takes people to make all kinds of a world.

Pementel Fined $250

Clarence Pementel, 28, Niles cattle broker, paid a $250 fine Tuesday after being convicted of molesting a child.

Justice Joseph Schenone of Livermore imposed the fine in Centerville justice court. Pementel was acquitted of charges of indecent exposure.

Rose Lewis Dies

Funeral services were held in Pleasanton Tuesday for Rose Lewis, wife of Ray Lewis, of 100 Second Street, Niles.

Mrs. Lewis died Saturday in a Livermore hospital after a long illness. She also is survived by a son in Sunol and a daughter in Oakland.

CENTRAL BANK TO CLOSE SATURDAYS

Effective Saturday, July 18, Central Bank at Niles will be open for business on Saturdays, it is announced by Dunlap C. Clark, President.

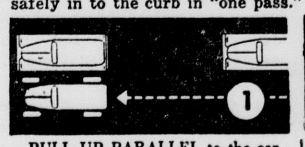
This change to a five-day banking week was made to comply with laws recently passed by the State Legislature.

"Central Bank has never favored Saturday closing," added Mr. Clark, "believing that a five-day week may inconvenience some of our customers. To compensate in some measure for this, the Head Office and all branches will remain open on Friday afternoons until five thirty o'clock, including safe deposit vaults. These extended banking hours will become effective the week beginning July 12."

It was pointed out that customers may make deposits by mail at any time, and that merchants and other commercial customers may make use of the Night Depository maintained at the Head Office and most of the branches, to safeguard their weekend accumulation of cash, currency and checks.

It's a Lark to Park This Way

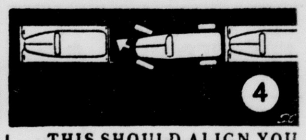
Since many motorists find parking is their biggest driving difficulty, the *Orange Disc*, Gulf Oil house magazine, recently conducted street tests to find the most practical method. As a result, the editors recommend the steps below, claiming they will put even new drivers safely in to the curb in "one pass."



PULL UP PARALLEL to the car ahead of the parking space, preferably one foot and NOT MORE THAN TWO FEET away from it (check distance through your right door window). Stop when rear bumpers of two cars are about even. Make sure road is clear to rear.

BACK UP SLOWLY, turning steering wheel as far right as possible. This swings car into parking space at about a 45° angle. When front seat is even with the other car's rear bumper (position above), straighten front wheels, still backing slowly.

AS YOUR RIGHT FRONT WHEEL comes opposite the other car's rear wheels, start turning steering wheel to left. When clear of other car's rear bumper, quickly complete turn of steering wheel to left as far as it will go. Back slowly as far as necessary to put your car "in" without hitting car to rear.



THIS SHOULD ALIGN YOU with curb in parking position. If not, straighten wheels and pull forward until aligned. Stop in center of space. Any difficulty with the method can usually be cleared up by a few minutes trial on a quiet street where the motorist can dismount and check his position against these diagrams.

WHAT DO YOU THINK?

Recently, this newspaper asked for better cooperation between towns to make our Township Chamber of Commerce work. We still believe that's the solution to the Chamber's present troubles, but after talking to a few folks, we have an additional suggestion to toss in the pot.

The idea isn't original with us, but it sounds like a good one. How about opening the membership of the Township Chamber to every industry, business or individual who cares to join?

One of the most confining things about the present body is that only chambers of commerce can belong to it. Each sends three delegates, who cast their votes when an issue comes up. But these are strictly town representatives, and each town has its own views, even though the issues most often affect the Township at large. So what we frequently find is eight different vetoes—just the same problem that robs United Nations of its power to act.

If members joined at large, wouldn't they be more apt to reflect a Township-wide viewpoint, rather than that of a single town? Moreover, wouldn't such a broadening of membership entice more industries, businesses and plain citizens, who feel they had a more direct voice in the chamber's operation?

Their dues would mean more money, and money is what the Township Chamber of Commerce has never been able to raise, on an adequate local basis.

Without going into full detail, because this idea is one that needs a lot of further development, The Register invites letters from its readers who are interested in civic affairs and in the future welfare of our Township. Let us know what you think. Remember, the collective opinion of plain citizens, thoughtfully expressed, always outweighs the experts.

AGAIN, SCHOOL BONDS

Once again, one of Washington Township's communities finds itself asked to vote more school financing. In this instance, it is Centerville. One week from tomorrow, on July 24, voters there will ballot on (1) a $169,000 bond issue, and (2) acceptance of a maximum of $395,000 in State school aid.

The bond issue must be approved to "unfreeze" the State aid. However there are two important additional considerations: only $77,000 worth of bonds need to be sold now, and the State funds probably will never have to be repaid.

To us, arguments for school financing fall into a simple category. Additional children need additional buildings to shelter them if they are to grow up an asset to this growing community. Centerville has the additional children, with more certain to come each month.

Therefore a solid "yes" vote is recommended for both school bonds and State aid.

BIRDS FREED

From the Brawley state game farms and holding pens operated by cooperating sportsmen's groups, the California Department of Fish and Game liberated 1,020 upland game birds during the second week of June.

The 900 Chinese pheasants and 120 Reeves pheasants were liberated near Calipatria and Niland.

OUR MYSTERY MAN TRAVELLED FAR

One reader told us last week: "As soon as I saw he'd flown 250,000 miles, I knew the Mystery Man was Jim Crawford!" We think that's making things too easy. This week we'll bury the clues a little better. See if you can guess the answer, then look it up inside The Register and tell yourself how smart you were.

This year's subject was born 42 years ago in Tipton, Oklahoma, a town so far south and west that it just misses being in Texas.

His dad was a farmer, but the family escaped the worst of the Dust Bowl troubles.

After graduating from school, our Mystery Man helped his family in a grocery store, worked three years in a garage, and a couple of years in a post office. None of these were exactly training for his future profession . . . give up?

In 1936, he married a girl from Tipton. In 1943 he joined a large organization with home offices in Washington, D.C.

This organization first sent him only 50 miles from home, to Ft. Sill. Later, however, opportunities for advancement came only with more extensive travel. In rapid succession, our man visited Ft. Leonard Wood, Mo.; Ft. Bliss, Texas; Camp Carson, Colo.; a number of camps in West Virginia. Finally, in 1944, he was assigned a new territory — in Southern France.

Here he made himself useful for 17 months servicing equipment sent to France from the United States—tanks, cannon and shells.

In 1946, however, business grew slack, and he was let out. Mr. Mystery says the parting was a happy one.

For a time he attended trade school in San Antonio, Texas, at the expense of his former employer. Then he went to Globe, Ariz., where he set up business on his own. In 1950, while visiting friends in Oakland, he decided to settle in Niles—and he did.

It was a happy move. Our subject's ready grin is well known on First Street, where he takes a cheerful part in all civic doings.

His hobby is gardening. His hopes for the future are high, when he has time to watch for the future.

Guess Who?

Finish Freeway: Niles

Niles' chamber of commerce this week added its voice to that of Centerville in demanding that the Eastshore Freeway be completed soon.

Members noted that rights-of-way purchase for the final Freeway link, between Mt. Eden and Warm Springs, have been assigned a low State priority.

They voted unanimously to ask the State to place the purchases in an urgency bracket.

'Empires' Hit by Tax Association Speaker in Niles

Taxpayer groups are a necessary help to honest elective officials, Roderick P. Petersen, of the Alameda County Taxpayers' Association informed the Niles Rotary Club last Thursday.

"Complexity of government," Petersen explained, "has permitted the building of costly 'empires' within government by people who are more interested in enlarging them than in serving the public.

"Individuals must join to relieve this burden and make sure they get an honest return from each tax dollar. Honest officials often suffer from lack of information, and an association of taxpayers, one that presents all of the facts, has become a necessary help to elected officials who honestly desire to do a good job."

Petersen said:

1. The Alameda County association saved $2,000,000 at the county level alone this year.

2. At the State level, it blocked several spending bills, one of which alone would have cost local taxpayers $5,600,000.

"When we consider that in this county alone, we have 96 taxing districts, is is any wonder that budget padding can exist and little empires flourish?" Petersen demanded.

He urged greater participation by individuals in work of the association.
